|---|--|
| 2022 Alan Heavens                           |  |
| 2021 Hiranya Peiris                         |  |
| 2020 Steven Balbus                          | 1966 Rupert Wild                         |
| 2019 Bernard F. Schutz                      | 1965 Robert Pound, Glen A.Rebka          |
| 2018 Claudia Maraston                       | 1964 Herbert Friedman, Richard Tousey    |
| 2017 Cathie Clarke                          | 1963 J.A.R Sandage, Martin Schwarzschild |
| 2016 Anthony Bell                           | 1962 André Lallemand                     |
| 2015 Rashid Sunyaev                         | 1961 Hans Albrecht Bethe                 |
| 2014 Andrew King                            | 1960 Robert d'Escourt Atkinson           |
| 2013 James Binney                           | 1959 James Stanley Hey                   |
| 2011 Gilles Chabrier                        | 1958 Horace W. Babcock                   |
| 2009 Jim Pringle                            | 1955 Hendrik C. van de Hulst             |
| 2007 Igor D. Novikov                        | 1953 Georges Lemaître                    |
| 2005 Rudolph Kippenhahn                     |  |
| 2002 Douglas O. Gough                       |  |
| 1999 Roger Blandford                        |  |
| 1996 Alan Guth                              |  |
| 1993 Leon Mestel                            |  |
| 1990 Icko Iben                              |  |
| 1987 Bohdan Paczyński                       |  |
| 1984 Donald Lynden-Bell                     |  |
| 1981 Philip James Edwin Peebles             |  |
| 1978 William A. Fowler                      |  |
| 1975 Stephen Hawking, Roger Penrose         |  |
| 1972 Paul Ledoux                            |  |
| 1971 Desmond George King-Hele               |  |
| 1970 Chushiro Hayashi                       |  |
| 1969 Antony Hewish                          |  |
| 1968 Robery Hanbury Brown, Richard Q. Twiss |  |
| 1967 Robert F.Christy                       |  |
